Box No. II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
1. X Claims because Claim and thus Authorit the PCT 2. Claims because	al search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons: s Nos.: 15 se they relate to subject matter not required to be searched by this Authority, namely: 15 pertains to methods for treatment of the human body by therapy of relates to a subject matter which this International Searching of its not required, under the provisions of Article 17(2)(a)(i) of and Rule 39.1(iv) of the Regulations under the PCT, to search. s Nos.: they relate to parts of the international application that do not comply with the prescribed requirements to such an that no meaningful international search can be carried out, specifically:
3. Claims becaus	s Nos.: se they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box No. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
2. As all so any add 3. As only	equired additional search fees were timely paid by the applicant, this international search report covers all searchable earchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of litional fee. It is some of the required additional search fees were timely paid by the applicant, this international search report covers ose claims for which fees were paid, specifically claims Nos.:
	nired additional search fees were timely paid by the applicant. Consequently, this international search report is ad to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Prot	The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.

International application No.

PCT/JP2004/014896

Concerning the "basic metal ion" as described in claim 1, the case wherein the basic metal ion is supplied from a sodium phosphate such as trisodium phosphate or disodium monohydrogenphosphate is exclusively supported by the description in the meaning within PCT Article 6 and disclosed therein in the meaning within PCT Article 5.

Such being the case, the search was made on the part which is supported by the description and disclosed therein, namely, the case wherein the basic metal ion is supplied from a sodium phosphate.
